**The first step in your Feng Shui journey is self-discovery and awareness. You need to know where you want to go to before you can create change in your life.**

You are reading this because you: are stuck, want change or need to shift your focus. You are in the right place for change! Feng Shui is a very powerful tool for creating change and shifting the direction of your life. You probably feel like you need movement in your life - a new direction - but you can't decide where or how to start. These worksheets are the first step.

The bagua map above allows you to examine your life from a different perspective: a Feng Shui perspective.

I ask my clients when they begin the Feng Shui process with me to answer a series of questions. These questions can be quite challenging for some because it forces us to sit and take stock, make choices and come to terms with our limitations.

Before you ask for change you need to know what you want and where you want to go. What has been holding you back? What needs attention?

Use these worksheets to help you find your path and gain awareness. Write out goals and initiatives to help you focus and find direction on your Feng Shui journey. You will use the ancient power of the bagua to shape your vision and focus your goals.

Choose the areas of your life that you would like to focus on & list up to 3 goals/initiatives per area FYI - You don't need to fill in each area. Be selective Stay focused.

How can you ask the universe for change if you don't know where you want to go?

Narrow it down.

Write down 3 goals/initiatives/projects  
from your bagua map.

Goal/Project 1  
Next 3 months

Goal/Project 2  
This year

Goal/Project 3  
5 year plan
