1. Choose your string: fishing line, red string or a colour from the bagua
2. Measure the string: measure by wrapping around your fingers or hand nine times or measure out 18" and cut down.
3. Thread it through the hole
4. Measure finished knotted string to be hung - 9" good rule of thumb
5. Hang from ceiling or window frame
6. Set an intention for the crystal, i.e. slow the energy down.
